# Cable Ties and Fixings

Clips, Clamps and Plugs

## Welcome to HellermannTyton

HellermannTyton is a leading manufacturer and supplier of products for fastening, fixing, installing, connecting, insulating, protecting and identifying electrical cables and data network infrastructure. Our mission is to provide you with innovative cable management solutions – wherever you need them around the globe.

## 2 and 3 way clips

The HellermannTyton Italy Product Development Team has released this new range of 2 and 3 way clips for cables and pipes - a specific product for high voltage wiring in hybrid and electric cars. The clips dampen vibration and diameter transitions due to the sudden increase in amperage. In addition to the closing system with hinge, an innovative Twist-Lock closing system without hinge is also available. This allows the clip to be closed easily whilst evenly distributing the force pressure across both compartments.
